# Critical Designation Exception

The Railroad Commission of Texas (RRC) requires oil and gas operators who are not filing for CID to complete the online Critical Designation Exception (CIX) filing process for facilities that are eligible for an exception to Rule 3.65.

# Reminders (1 of 2)

- Deadline to file CIx each year:

## **March 1<sup>st</sup>**

Production Months: April - September

Filing Months: June - November

## **September 1<sup>st</sup>**

Production Months: October - March

Filing Months: December - May

# Reminders (2 of 2)

- When filing CIX for the first time, there is a one-time fee of \$150.
- You must complete the CIX filing process through the RRC Online System.

<https://webapps.rrc.texas.gov/security/login.do>

## Rule 3.65 (e) (1)

- A facility listed in subsection (b) of this section that is **NOT** included on the electricity supply chain map produced by the Texas Electricity Supply Chain Security and Mapping Committee may apply for an exception.
- An applicant shall demonstrate with objective evidence a reasonable basis and justification in support of the application.

# Justification and Evidence (1 of 5)

## Examples:

- Gas consumed on site
  - Flare permit, Piping and Instrumentation diagram
- Gas consumed outside of this state
  - Process flow diagram, Aerial Map, Sales Tickets
- Gas not provide for third-party use
  - Private use pipeline – diagram with ins and outs
- SWD does not support critical facilities
  - Copy of permit, 6 months of production
  - P18s for 6 months, list of wells SWD supports

Oil & Gas Production Data Query

Production Data [FAQs](#) [PDQ Help](#)

General Production Query | Specific Lease Query

## Production Data

To find production data, there are two types of searches that you can do.

- [General Production Query](#)

Use the General Production Query to find oil and gas production information that covers a wide scope or is more extensive. You can drill down to whatever specific information you need from the general queries. For example, if you are looking for production information for a geographic area of Texas for a given year, or a span of years, the general query is a better fit.

- [Specific Lease Query](#)

If you are searching for information about a particular lease and you have the lease number and the district number, use the Specific Lease Query page. If you don't have the number, but you know the name begins with ADCO, for example, you can search for Lease Names.

**Caution:** Using the browser's Back button causes inconsistent query results. Use the Query Path links provided in your resulting data to navigate.

## General Query Criteria

Use this form to specify the type of information you want to see.  
For information about a specific lease, use the [Specific Lease Query](#).

**Search Criteria:**  
**\*Initial View:**  Lease  Operator  Field  District  County  
**\*Date Range:** from   to    
**\*Choose One:**  Both  Oil Leases  Gas Wells  
**\*Select one Geographic Region from the options below:**

**Onshore County:**   
**Offshore Area:**   
**Field:**    
**Limit query to a specific Operator (optional):**
