Comments concerning draft rulemakings

I do NOT support any rule making of any kind, where the industry being regulated helped to draft 2/3's or more of the rules. It seems a little counterintuitive to allow the industries that are POLLUTING, to write their own pollution rules, don't you think? Keep our State & Water Resources CLEAN & clear of any & all products & byproducts of the Petroleum Industry. Period. No "let's let them pollute a bit" — no. 0.0% do I support any of these measures, & all of them should be re-written without input from the oil & gas lobbyists.
