Dear Rules Coordinator Leslie Savage,

As a Texan, I am concerned about the issue of carbon dioxide injection and the risk these projects pose to the health and safety of our land, water, and communities.

In addition I have a very big concern with the Railroad of Commission being the regulating authority over this new and possibly risky venture. As the RRC has commonly acted in ways that do not provide me with confidence that they can increase their scope or handle this safely for all Texans.

Thank you for your time.

Sincerely,

Sincerely,
Mr Andy Davis
