

RAILROAD COMMISSION OF TEXAS

NOTICE TO OIL & GAS AND PIPELINE OPERATORS

Winter Weather Outlook

The National Weather Service is predicting potentially severe winter conditions across portions of Texas over the next several days. Wintry precipitation is expected to begin in parts of West and North Texas Monday afternoon, with more significant freezing rain after midnight tomorrow into Tuesday. Ice accumulations will create hazards from near Crosbyton and Post, to the Wichita Falls area, Abilene area, East to North Texas including the Dallas/Fort Worth Metroplex. Some lighter ice accumulations may occur along I-35 from Fort Worth to Waco as well.

The Railroad Commission of Texas (RRC) advises all operators under the RRC's jurisdiction in areas of potential impact to take the following actions:

- Monitor local, state and national weather reports for updates on potential severe weather impacts;
- Heed all watches, warnings, and orders issued by local emergency officials;
- Secure all personnel, equipment, and facilities to prevent injury or damage; and,
- Monitor and prepare operations for potential impacts, as safety permits.

The RRC maintains a **24-hour, toll-free emergency line, 844-773-0305**, to report emergencies, including leaks or spills and damage to gas pipelines. Or, email the RRC at publicassist@rrc.texas.gov.

In addition, the RRC advises all operators to monitor and report road conditions during the weather event.

- Report road conditions using the form at https://forms.office.com/pages/responsepage.aspx?id=dR-wo0r_AUCdaJup7F6gvNQEIkthOMFCserX0xpVXZBUMTdDOU9YN0o3SDdDNDIZNFVNS1UzSk9LVSQIQCN0PWcu&web=1&wdLOR=cA622C8B1-FC57-4CEF-B2C7-4B0C629DAF8C.
- Monitor Texas highway conditions information on the Drive Texas website at www.DriveTexas.org.
