

RAILROAD COMMISSION OF TEXAS

CONTRACT MANAGMENT

ADDENDUM #1

DATE: 1/14/2022

SOW#: 455-21-1011

TITLE: Salesforce Implementation Services and Support

REVISED PROPOSAL DEADLINE: Monday January 31, 2022, at 2:00 PM Central Time

Addendum Item #1:

Purpose of this Addendum is to publicize questions submitted within the required submission time frame with answers:

NO	QUESTIONS	ANSWERS
1	Vendor intends to provide a proposal for RFO 455-21-1011/Salesforce Implementation Support Services (SISS) as a Prime Contractor. However, vendor is currently on the apparent award list for DIR DBITS, and is working through contracting with DIR. Vendor expects the contract to be complete ahead of the SISS award, but, nevertheless, would like to confirm that RRC will accept vendors proposal in vendor's current negotiation status.	Yes, RRC will accept the proposal. However, RRC cannot make any award for this solicitation until DIR contracts are in place.
2	If vendor proposes executing the two workorders in parallel, will the review process specified in Section 2.9 allow for an Alternative Fuels Safety (AFS) deliverable to reviewed at the same time as an Environmental Permitting (EP) deliverable?	Yes
3	Will the EP workorder require data migration from EPS to Salesforce?	Yes
4	Will the AFS workorder require data migration from LIS to Salesforce?	Yes
5	Regarding LIS and EPS, how many tables and columns does each database contain? Approximately how many records?	LIS has 321 tables, 4,271 columns, and 14 million records. EPS has 30 tables, 238 columns and 600,000 records. NOTE: The EPS numbers provided are only for the EPS data tables and do not include supplemental tables that feed dropdown boxes or lookup tables with information pulled from non-EPS databases.
6	A requirement in Part 3 of Attachment 2 states "The system shall be capable of allowing an operator to submit GIS data and have the data be stored according to submission type." In what format is this GIS data submitted? Is it manually entered or is a file uploaded? If it's a file, what is the file type?	Shape files

7	Paragraphs 2 and 3 of Attachment 6 references “POCs”. Is RRC requesting that the Vendor provide a Proof of Concept (POC) for one or both workorders? If yes, can RRC provide additional details for the POC request?	RRC is requesting the Vendor provide a Proof of Concept for both Workorder 1 and 2. Vendor should provide a workplan with a detailed description that explains how they would complete the Proof of Concept for Workorders 1 & 2.
8	Vendor assumes that the deliverables will not be completed in the numeric order given in Attachment 6, but will be completed in the order in which they fall during the normal course of development activities. Please confirm.	The specific deliverables and the order of those deliverables can be proposed by the respondent according to what they think is best for the project
9	There is no Deliverable 3 listed in Attachment 6, Pricing Worksheet. Please provide additional information on Deliverable 3.	The numbering in the Pricing worksheet skips from Item 2 to Item 4. This is a numbering error and there is no item 3 to be priced.
10	Where should vendor include the draft workplan for Workorders 1 & 2 in the RFO response?	The draft workplan for Workorders 1 & 2 should be included as a part of section 3.1.4.
11	Would RRC please consider an update to the proposal due date to be 10 business days after answers are released? To professionally incorporate answers to all questions, the vendor community needs time to update the responses based on RRC answers.	RRC will extend the response deadline from 1/24/22 at 2:00 to 1/31/22 at 2:00.
12	What is the list of procured (and/or licenses) Salesforce features that RRC has acquired?	RRC has Salesforce licenses in quantities to support adjacent / existing applications. <ul style="list-style-type: none"> • Lightning Platform Plus – Unlimited Edition • Customer Community Logins • Salesforce Shield • Government Cloud Premiere + Success Plan
13	Does RRC have an incumbent to deliver the current migration work into Salesforce?	There is a not an incumbent vendor as this is the initial solicitation for Salesforce Implementation Services and Support. However, RRC does have active contracts that include development on the Salesforce platform as an element of the Mainframe Transformation effort.
14	If an incumbent exists, who is the incumbent?	N/A
15	If an incumbent exists, is the incumbent in good standing with RRC?	N/A
16	If an incumbent exists, is the incumbent eligible to bid on this DBITS SOW?	N/A

All other aspects of the **SOW# 455-21-1011** remain as is.
